6 MEN HELD FOR BOMB DISASTER

CHARGED WITH SUB-
WAY BLAST IN NEW
YORK CITY.

LABOR UNION INVOLVED

POLICE ASSERT GIGAN-
TIC PLOT WAS CON-
FESSED.

NEW YORK, Nov. 3.—Six men were arrested today charged with wrecking the subway station at 110th street and Lenox avenue with a dynamite bomb on October 24.

Five of the men, the police say, are traction strikers. The sixth is a chauffeur. According to the police some of the men confessed to amazing plans of wholesale violence and destruction in this city. It was said that the plans included wrecking the Times Square station, the busiest subway station in New York with dynamite.

The police are seeking a seventh conspirator.

The arrests came as the result of a constant watch which had been kept at the plant of the Hercules Powder Compa at Kenilworth, N. J. The police had learned that the dynamite used at 110th street had been bought there and they felt certain that the men would return for more.

The prisoners gave the following names:

Michael J. Herlihy, financial secretary to the carmen's union; George Pollock, Clarence Kull, J. J. Marna, Benjamin Hamilton and Thomas McGuire. McGuire is the chauffeur.

After the arrests Captain Tunney of the detective bureau issued this statement:

"We have evidence that the funds financing this explosion and other contemplated explosions came from the carmen's union. We are on the trail leading to other arrests and Herlihy, who has made a partial confession has furnished the trail."

According to information which the police claim to have the Fifty-ninth street subway station was marked for destruction as well as that at Times square. The first clue that the police got was the discovery of five fulminating caps and some fuse in Central Park just after the 110th street explosion. These were found to have been made at Kenilworth.

Later developments established all of the prisoners but Thomas McGuire as officers of the local No. 301 of the Amalgamated Association of Railway and Street Railway Employees, according to the police. They are Benjamin Hamilton, business secretary; George Pollock, assistant financial secretary; Clarence Kull, secretary, and James Marus, a member of the executive committee. McGuire is a chauffeur.

All of the prisoners were arraigned in Harlem police court and held on a felony charge punishable by 20 years imprisonment, if they are found guilty.

There is no evidence that any of the national officers of the union had any knowledge of the alleged plot.

Herlihy declared in his confession, the police say, that there was no intention of taking human life. The men merely wanted to tie up traffic in the subway.

McGuire, who lives in Caldwell, N. J., was mentioned as one "who knew where dynamite could be secured," it is said.

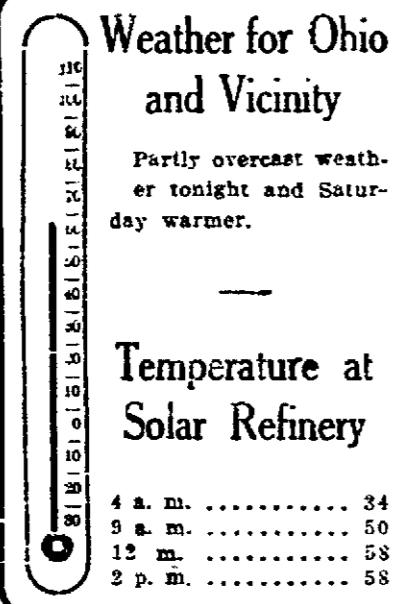

INSPECTION PARTY WILL VISIT LIMA

C. H. & D. Officials to Ar-
rive in Lima Monday

Afternoon.

The annual inspection of the C. H. & D. railroad will be made by officials of the road the first part of next week. On Monday, the part of officials will arrive in Lima late in afternoon and make a thorough inspection of the local shops owned by the railroad company.

Include in the party will President Daniel Willard and Vice Presidents George M. Schriver, Arthur W. Thompson, J. M. Davis and O. W. Galloway. They are expected to arrive in the afternoon and may spend the night in this city.

PRESIDENT WILSON ELATED OVER HIS RECEPTION IN N. Y.

SHADOW LAWN, LONG BRANCH, N. J., Nov. 3.—With the active work of his campaign behind him, President Wilson returned to Shadow Lawn today highly elated over the reception given him in New York City last night. The president will speak here tomorrow, but the occasion will be more or less of an "old home week" affair and the address may be of a non-political nature.

The trip to Long Branch from New York was made on the yacht Mayflower and the president planned to spend the day resting after his arduous activities of the past 48 hours.

Advisers of the president declare that the great ovation given him last night at Madison Square Garden made it plain that the national democratic ticket will win in New York state. Even if Charles Evans Hughes should be successful in the up-state districts they say President Wilson's popularity in New York City will offset this.

McGuire, who lives in Caldwell, N. J., was mentioned as one "who knew where dynamite could be secured," it is said.

LASSEN VOLCANO AGAIN IN ACTION

REDDING, Cal., Nov. 3.—Lassen Peak is spitting milky balls of black smoke at intervals of from five to ten minutes today. The most violent eruption of the year has taken place. Those who have watched the mountain since it awoke from its half century torpor in May, 1914, believe its crater is a boiling cauldron as the result of many violent explosions.

OHIO WHEAT OUTLOOK IS NOT OF THE BEST

COLUMBUS, O., Nov. 3.—Outlook for the Ohio wheat crop is not bright, according to the monthly crop report issued today by the state agricultural board. The crop is estimated at 86 per cent of normal. Corn prospects are regarded as below standard. Dry weather made husking slow. A scarcity of marketable hogs is attributed to a shortage in feed, low water and cholera outbreaks. The report said the rye acreage is a little below last fall's seeding. The potato crop is believed to be nearly 4,000,000 bushels less than last year's yield.

FORMER PASTOR HAS GREAT BUSINESS IN MATRIMONIAL LINE

'Temples of Truth' Are the
Scenes of Dozens of
Weddings.

Charge Made That Leader
Fleeced Duples Out of
Million Dollars.

BOSTON, Mass., Nov. 3.—A remarkable chapter in the career of the Rev. Arthur Worthington was revealed today by investigators who charge that the unfrocked Presbyterian pastor went through a dozen or more marriages, elopements and desertions and fleeced his wives and other dupes out of a round million dollars.

Much of the story concerns his operation of "Temples of Truth," which he took up in New York City when he married the wife of a man conducting a "Temple of Truth." Their "heavenly marriage" took place in the presence of her husband and several members of the cult, Worthington claiming her as his affinity under the teachings of the doctrine.

In his "Temple of Truth" he expanded to thousands of followers, many of them girls from 17 to 20, a doctrine of free love, one of the principal features of which consisted of "heavenly marriages."

"Temples of Truth" yielded him, it is said, more than \$100,000 and through them he also met several girls, whom he found to be his affinities and whom, in accordance with his teachings, he made his "Heavenly brides." That he planned to establish a "Temple of Truth" here was disclosed today. His plans were shattered when he fled on learning his career was to be exposed. He had matured his plans after his forced resignation as Presbyterian pastor at New Hamburg, N. Y., when he did not know that he was to be unfrocked.

His connection with "Temples of Truth" started with his conversion in a "Temple of Truth" conducted in New York by Mr. and Mrs. John Plunkett and his own "Heavenly marriage" to Mrs. Plunkett, with Mr. Plunkett and a few other members of the cult as witnesses.

When he fled from New York with the "Heavenly bride," he stayed several weeks in Chicago before the activities of the police convinced him that he would be happier in New Zealand.

In his "Temples of Truth" he exhorted his followers to obey the promptings of their hearts and if they felt that they loved some one to become their "Heavenly soul mates" despite the fact that they might already have a life partner by conventional methods.

To do so was the true road to permanent happiness according to the teachings of "High-priest" Worthington.

In "Heavenly marriages" the ceremony consisted of the principals standing before a few other members of the cult and announced that each took the other as husband or wife in the matter before God. Then followed the drinking of wine and other rites of impressive ceremonies.

The eleventh hour stab in the back, against which this paper and others have more than once warned voters, has appeared in more than one form during the past twenty-four hours.

Fortunately for the intended victims, there are several instances in which the efforts to mislead by lies have been detected and can be anticipated by a full exposition of the actual facts in the cases. Otherwise the rumors might have been issued too late to permit refutation before the close of the campaign.

One of the games played with a stacked deck involves a few county and state candidates, but appears to have spent its force getting started. Another involves the initiative on municipal ownership of telephones, but the backers of that erratic project have sadly bungled the job in contradicting themselves and increasing the feeling against political control and heavy increases in the city's liabilities. But the biggest

trump to date involves the congressional race, and because a few of the elements subsidized by Congressman Russell have gone off half cocked the beans have been spilled in that case.

Saturday evening and Sunday morning were to have witnessed the announcement in the republican press of the district that "the Wilson-Marshall club of Darke county, with a membership of 2,000," had dropped to Russell. The Sidney Journal, in which Russell is financially interested, as well as The fake for release at the proper

HARMON AND CAMPBELL
URGE FIRST VOTERS TO
AID WILSON AND COX

COLUMBUS, O., Nov. 3.—Joint to enter the trenches for their country, he did not make political use of the story was to show that the democratic organization of Darke county had started a warfare against Ben F. Welty.

As a matter of fact, the exact reverse is the case. The Wilson-Marshall club in that county is an outlaw organization composed of five men, all "true glue democrats," ignored by the rest of the county, no longer in the party and able sides for the republicans for two years. The club, which is a gang of anti Cox, anti-Pomerene, anti-ticket exiles in disguise, is fighting the entire ticket because of being tossed out of the party councils en masse for treason to the cause.

Wednesday evening Ed. Williams and his brother Lendall, of Greenville, flooded the county with literature attacking Governor Cox, Senator Pomerene, Ben Welty, County Auditor George Garrison, Treasurer Cassius Stoltz, Charles Rayburn, candidate for clerk of courts, John Ferron for surveyor, Chris Appenzeller for representative and Linda Browne for sheriff. All are the candidates of the regular organization and opposed by the true glue or Garber "outlaws". Browne was for a time connected with the Williams club, but couldn't stand for their tactics and stayed with the democratic party. The rest were bitterly opposed in the recent primaries by hand-picked Williams candidates.

The circular against the county ticket is signed by Ed. Williams, J.

Carlstrom Reaches New York After Remarkable Air Journey.

NEW YORK, Nov. 3.—Victor Carlstrom, aviator, completed his Chicago-New York flight at 8:55 a. m. today when he landed in safety on Governor's Island.

Carlstrom was forced to make two stops during his journey. His original plan was to make the trip between sunrise and sunset of one day. But in this he failed because a loose nut forced him to descend at Erie, Pa., yesterday afternoon. Darkmondport, N. Y., last night, and he remained over there, resuming his aerial voyage shortly after daybreak. Carlstrom was given a hearty welcome as he swooped down onto Governor's Island at 8:55 1-2 (official time). A large crowd had assembled. Carlstrom, after locating the island and being signalled about his landing place, made a grand circle over Brooklyn and then descended gracefully.

Carlstrom's unofficial average flying time was close to 107 miles an hour.

The aviator left Chicago at 6:00 a. m., yesterday. Without a stop he traveled to Erie, a distance of 452 miles in 4 hours, 17 1-2 minutes. Before sunset he had reached Hammondsport, making a total of 652 miles, covered in 6 hours 7 1-2 minutes.

This shelling continued until 4:30 in the afternoon when reconnoitering parties went out to ascertain the extent of damage done to the hostile works along the Lekita-Hudlo-Castagnazives road; then the caissonading proceeded all night. On Thursday the infantry attacks began. More than 5,000 prisoners have been taken up to date.

SHACKLETON COMES OUT OF ANTARCTIC AFTER TWO YEARS

NEW ORLENS, La., Nov. 3.—Sir Ernest Shackleton came out of the frozen south today and mingled again with English speaking people—the first time since the fields of ice and snow in the south polar continent claimed him two years ago.

The Antarctic explorer arrived in this port this morning on the United Fruit steamer *Parimana* from Coion.

"It's good to be back among my own people," he said as he strode down the gang-plank to American soil.

Sir Ernest left a few hours after his arrival for San Francisco, whence he will sail to Wellington, New Zealand, and thence to Dunedin to join his ship, the *Aurora*, and the attempt to effect a rescue of his ten companions who were left marooned on the ice-covered Antarctic continent in Ross sea.

The hardships which he underwent in his fruitless two years quest of the south pole and his worry over the fate of his companions have told deeply on the explorer. He was reticent concerning his experiences.

"My first thought," he said, "is for those ten brave men left up there in Ross sea. That is my only aim at present."

"I will sail from San Francisco on November 8, and I hope to reach my stranded comrades, if they are still alive, late in January."

"After my return I propose to return to England and fight with the British until the end—if the war is not ended by that time. After the war, if I survive, I may embark again on an exploration tour, and try to cross the south polar continent."

"But," and he smiled grimly, "until I learn the fate of my men and until my country no longer needs me, all plans for another exploration are relegated to the background."

PERSONALS

Miss E. Jane Bailey of the teaching corps of the Wapakoneta schools, and her nephew, Wilbur Bailey, came yesterday to Lima to visit Clara Bailey, a patient at the City hospital.

Clarence Heller, for six years employed as a clerk at the Taeschau grocery, Wapakoneta, has resigned and taken a position in the office of Swift & Co., meat packers, Lima.

Mrs. O. W. Brackney of St. Johns spent Thursday in Lima with her mother, Mrs. A. Hettlesater, who is a patient at the City hospital.

Mrs. Gus Brendel and son Charles, of Wapakoneta, spent yesterday in Lima with Charles Wenzlitz, who is in the City hospital. Mr. Wenzlitz is doing nicely since his right arm was amputated. He was injured while hunting ducks at Lakewood.

Mrs. Dunkley, field officer for the Girls' Industrial home at Delaware, was a caller at the court house yesterday.

BETTER KEEP THE BOY.

At nightfall the junior partner's exultation of the day changed to chagrin and he clamed noisily for the errand boy's dismissal.

"Better think it over," the senior partner advised.

"Why waste time in thinking," the junior retorted, "when he's got to go?" Here I am, lying awake every night for a week planning an effective window decoration, which is turned into a laughing stock the first day by the stupidity of that boy, who leaves three yards of woolen dust rag draped around silver tankards and trays of diamonds."

"Well," said the elder jeweler, "people stopped and looked, didn't they?"

"Yes, but what of it? That dust rag?" growled the junior.

"That's why I advise you to keep the boy," advised the senior mildly. "If it hadn't been for him I am afraid nobody would have looked at all."—Exchange.

WIFE SLAYER IS SHOT.

COLUMBUS, Ga., Nov. 3.—W. O. Bowden shot and killed his girl wife early today and was in turn shot to death by J. L. Cox, her stepfather, and Charles Hill, her brother, both of whom had witnessed the affair. Domestic troubles are blamed for the tragedy.

SAXBY JURY IS UNABLE TO AGREE ON A VERDICT

Twelve Men Deliberated 24 Hours Before Final Dismissal.

Prosecutor Barr Says Saxby Will be Re-tried on the Same Charge.

The jury which heard the trial of the state of Ohio against George Saxby announced to Judge John P. Valley at 4:40 o'clock yesterday afternoon, they could not reach a verdict. Only a part of the jury is said to have been favorable for conviction of Saxby. The jury took the case a few minutes after 4 o'clock on the day previous to their report.

As no report was rendered by the jury, Saxby, who waited from early in the morning until the time the announcement was made, became more hopeful. He realized it was in his favor. As he sat on the bench at the entrance to the probate court office, he chatted gaily with friends.

There was a flurry in the courtroom and through the corridor, when at 1:35 o'clock the foreman brought down a note to Judge John P. Valley. It was thought then agreement could not be possible. Saxby will be re-tried on the charge, with another jury in the box. The time will be decided upon by Prosecuting Attorney Barr. No date has yet been fixed.

Saxby was indicted for attacking Sheriff Eley to lynch Charles Daniels, colored.

The court, in charging the jury, told them to consider three kinds of verdict, for conviction as charged, for attempted attack and for acquittal. For attack or attempted attack, the sentence is the same, from one to ten years in the penitentiary, if convicted. Milton Spyker was convicted on a like charge last week by a jury which heard his trial. Motion for a new trial is now pending.

The jury which heard the Saxby case consisted of E. O. Sawmiller, Samuel Pittilla, Ira Newell, Charles Braun, William Hotz, J. F. Capp, A. H. Smith, Harry Whistler, Frank Roeder, H. J. Reglin, George Mid-dlesteeter and Ernest Sooles.

COMMERCIAL STAR DEFENDANT IN SUIT

Sophia Feil Charges South Side Paper With Slander.

Sophia Feil, of 727 Findlay street, filed suit for damages in the sum of \$5,000, today against the South Side Commercial Printing company, publishers of the South Side Commercial Star, doing business at 716 South Main street. Miss Feil is the young woman who was attacked by a negro on her way home from McCullough lake park the middle of September.

She alleged that on Friday, September 22, that newspaper published the following false and defamatory matter: "The girl," meaning this plaintiff, "has a local reputation for waywardness and has several times been arrested for disorderly conduct, drinking and consorting with men;" and further, "It was reported this morning that the girl, meaning this plaintiff, is known to have spent two weeks this summer with Lima's most notorious negro character at Cedar Point and further, 'The girl,' meaning Sophia Feil, this plaintiff, 'is said to have attended both the masquerade dance at McCullough's park and the Hooche dance in a livery barn in an alley off the public square."

She alleges these statements have placed her in a questionable position among her friends and acquaintances.

ROY IS RECOVERING.

Harold Klinger 17 years old, shot soon after leaving his home on the Marion road on a hunting expedition Wednesday, is still in a serious condition at the City hospital. Physical casts hold hopes of ultimate recovery.

RHEUMATIC FOLLOWS EXPOSURE.

In the rain all day is generally followed by painful twinges of rheumatism or neuralgia. Sloan's salve will give you quick relief and prevent the twinges from becoming torture. It quickly penetrates with heat rubbing and soothes the sore and aching joints. For sore, stiff, exhausted muscles that ache and throb from overwork, Sloan's Liniment eases quick relief. Liniment soaks strains and other minor injuries to skin. Liniment will be had to obtain. Liniment will be had to obtain the day of your diagnosis, 25c.

AMBULANCE TRIPS.

The Williams and Davis invalid coach made the following removals: Miss Alice Spencer was taken from her home at 224 South Metcalf street, to the City hospital, yesterday.

W. L. Garlock was taken from the City hospital to 600 State Street.

DON'T SPOIL YOUR BALLOT AND LOSE YOUR VOTE

Voters who desire to vote for President Wilson on the Democratic ticket should place their X mark in the circle beneath the emblem and then place an X mark before the name of each other candidate desired to be voted for. This is the only safe way, otherwise there must be 24 X marks placed one before the name of each presidential elector, in order to cast one vote for President Wilson. The latter method is confusing and in all likelihood will lead to a spoiled ballot and a wasted vote. Safety first in voting for President Wilson requires the X mark in the circle above his name on the ballot. Of course, those who vote straight tickets will have no difficulty.

FORMER RESIDENT OF LIMA KILLED

Edgar Chenowith Meets Death by Falling Under Train.

The body of Edgar Chenowith, who was killed in a railroad accident at Alexandria, Ind., Wednesday, was accompanied to Lima yesterday from Muncie, Ind., and taken to the Williams and Davis mortuary. Pending arrival of a brother from Salt Lake City, Utah, the funeral services will not be held until Monday.

He moved away from this city about a year ago and took up his residence in Muncie, Ind. He was 27 years of age. While picking up a car of cars in the Indiana town, he slipped under the engine of his own train. A wife in Muncie survives.

COUNTERFEITERS NARRED.

NEW YORK, Nov. 3.—Two men, who are charged with being accomplices of H. R. Wilkins in making or passing counterfeit "Indian Head" \$5 bills, were arrested in Brooklyn yesterday. Wilkins was arrested in Santa Cruz, Calif., a few days ago. One of them, Wilkins' nephew, said he was an engraver formerly employed by a big note company of this city. Chief Flynn, of the secret service, who made the arrests, said both had confessed helping Wilkins manufacture counterfeit notes.

WAS MURDERED, BUT MYSTERY DEEPENS

Since turkeys are now worth their weight in gold it is likely that an extra large order of cranberries, the indispensable side dish of a Thanksgiving dinner, will be in vogue. A large double portion, as it is, will be held.

The man, a stranger, was well dressed and evidently a foreigner. In his pocket was found a roll of \$200, but no papers. His coat and vest lay on the bank near the body. Police followed a trail to a shack a hundred feet away and there found evidences of a desperate struggle.

The Rev. Moses Breeze, D. D., of Columbus, will deliver the morning and evening sermon at Market Street Presbyterian church Sunday. Dr. Thomas Knox, pastor, says of the Rev. Mr. Breeze: "He is perhaps the most interesting and stirring speaker I have ever heard."

The Rev. L. J. Cahill, of Cleveland, state secretary of the Ohio Christian Missionary society, will deliver the morning sermon at the Central Church of Christ, on Sunday.

Among the list of corporations allowed by the secretary of state, yesterday, was the Lima Hollow Brick company. It is likely that the plant known as the National Tile Roofing company will be taken over by the company. Chester Cable, of this city and W. H. Willis, of Cincinnati, are named as the principal incorporators.

Moving pictures which have been shown in the Lyric and Majestic theaters every Saturday morning under the auspices of the city federation for the children, will be discontinued on account of the inability to secure the films desired.

Little Light Bearers of Trinity Methodist church will meet tomorrow afternoon at the home of Mrs. Hale of 407 East Euclid street.

Mrs. A. J. Korn, former Lima resident, now living in Santa Barbara, Calif., died Tuesday, according to information received here. She moved to the west eight years ago. Mrs. James Britt, of 154 East Circular street, is a niece.

St. Rose Catholic parish has arranged for a festival, to be given early in December. Tickets are now

being sold and it is probable the successful holder will drive away with a new Dodge automobile. The event will take on the appearance of a fair. Dates have been set for December 4, 5, and 6, at St. Rose auditorium.

ALL GOOD MEN

There are many voters who take little interest in local affairs on the ground that there isn't much at stake, and there are others who ignore the county ticket in elections except insofar as they have personal friends or business associates in the campaign. Such an attitude of mind is a mark of poor citizenship and lies at the root of subsequent complaints of inefficiency and corruption.

Every voter should know for whom he is voting, even if he has to study the records of the low that of the grammar school candidates. It is not a matter of personal friendship that brings the third of the rural literary society election of the best qualified man—the distortion of facts is almost equal to that displayed by Horst

The Democrats of Allen county newspapers while the unfeignedly are proud of their ticket. They claim glaring absurdities and have a right to be. Objections to impending danger claims are just the manner in which the court would be expected from the house in being managed by all the party which got the president re-elected at the commissioners' office, out of one bloody hand.

"Back to the broad line," says the Wilcox epidemic. Why not dead election—Brotherton, Welsh, Eley, one of all broad line or Cushing or Wright, Fisher and Barr. All have something else. There would be as enviable records. Brotherton has much sense in the type. The last been a familiar figure in the legislature according to his fellow men under the Roosevelt boom in 1907, but despite the fact that Willis when properly reigned supreme was in control he has been prominent under the Dingley crowd. How in the house of representatives much did you lose in the panic that Welsh has been a faithful guardian of the public's cashbooks and nothing. "After the war what?" says a man irregular has ever been found. Hughes on the other hand has his office, Eley's denunciation in the history of the United States to do his duty in spite of anything. When my poor old friend is too well known to demand an unusual amount of protection in the community member of the board of commissioners, he is a member of commissioners, but the fact that blind old Larrivee will be in control he has been outnumbered has not stopped him. He is a man that kept him from serving to the best of his ability.

It is not sufficient to say that he has attended to business tried to please, but to rest your eyes and brain all comes and quickly but effective. No burns are required to tell it. He handles his office for the public's best interests. Unless the sensible but there may be no reason old he will be one of the high men on ladies who did not care after the ticket. Prosecutor Barr has won proved by his rapid work in securing indictments and a conviction. What ever became of the old thus far in the not cases that he is fished out with his fists?

All six deserve re-election. They have earned another term and are opposed by me a hitherto untried

THE PRESIDENT AND LABOR

To the Editor of the Times-Democrat:

It has been seriously asserted that the president is not a true friend of labor. Mr. Wilson, ever refute this charge. When he was governor of New Jersey he recommended the enactment of legislation to protect the health of employees and to provide safety, plans as to hazardous employment.

During President Wilson's administration more legislation is enacted to labor as enacted than under any previous administration in the history of the government. Among these are the abolition of government injunction. Trial by jury, except when creation of a state of arbitration and conciliation. Passage of eight hour law.

Protection of children workers in factories and schools, and for the purpose of government work in Alaska. Investigation of industrial disputes. A children's bureau. Protection is made for industrial education and a workmen's compensation law.

These and others of marked benefit to labor have been passed by Congress and approved by the president. He has time after time in his public speeches said to the people that he stood on his record and did not share responsibility for his action as president. It is a record of achievement that may well thrill with pride and satisfaction every genuine American. It is a record of progress that sets the nation forward more than half a century.

Misrepresentation, perversion of facts, absolute falsehoods cannot defeat the president on the 7th day of November.

Every progressive voter, who believes that the nation should go forward and not backward will vote for President Wilson. Every voter who believes that the rights of man are worth the governmental conservation as the rights of property will support President Wilson.

Every man who believes that the beneficial legislation passed during the present administration ought not be repealed should vote for Woodrow Wilson.

The republican spellbinders say he has not kept us out of war. They

forget that he was denounced a few

months ago for not getting us into war.

They forget that they demanded the severance of diplomatic

relations with Germany, a condition

or war but the president firmly

stood for peace.

They forgot that this country was

less than a year ago on the verge

of war with Germany. The presi-

dent's wise diplomacy saved us from

such calamity.

Cause of Constipation.

Constipation results from a lack of moisture in the residual matter of the stool. To effect a permanent cure more water must be taken into the system. Drink a full glass of water half an hour before breakfast and about the third of a glass an hour and a half after each meal, also eat an apple or banana before breakfast and before going to bed. Make sure that your bowels move just after breakfast whether there is an inclination or not. When a medicine is needed take Chamberlain's Tablets as they are mild and gentle in effect, but no medicine should be taken when operations can be induced naturally each day. To effect a permanent cure time and patience are required as bad habits are more easily formed than broken up. Obtainable everywhere.

DAYTON—Cont. acts aggregating \$ 100,000 for the construction of freight and passenger cars have been received by a local company.

COLUMBUS—The Huskies Womans' special failed to arrive in Columbus as scheduled today. At Union depot it was said that arrangements for the train to stop here had been cancelled and that no future date had been set.

There is plenty of money on the republican side of this campaign. What put it up? And why did they put it up to help you?

WOMAN A PHYSICAL WRECK

Tells in Following Letter How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Milwaukee, Wis.—"Before taking Lydia E. Pinkham's Vegetable Compound I was a physical wreck. I had been going to a doctor for several years but he did me no good. A friend told me about Lydia E. Pinkham's Vegetable Compound so I decided to give it a trial, and it gave me relief from bearing down pains which had been so bad that I would have to lie down. I also used the Sanitize Wash and it has done me a great deal of good and I am not troubled with weakness any more" — Mrs. P. F. Hart, 1209 Booth Street, Milwaukee, Wis.

The most successful remedy for women's ills is Lydia E. Pinkham's Vegetable Compound. It has stood the test for forty years, which would be impossible if it did not have genuine merit.

For special advice, free, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

STANDARDIZE PLANS FOR THE U. S. ARMY

WASHINGTON, Nov 3.—War department experts today completed sufficient quantity of supplies to maintain it for at least six months. The first standardized schedule of equipment for aeroplane units ever adopted by the United States army, will be completed by the end of November. The schedule aeroplane units will be so completely standardized as are regiments, battalions and companies of infantry, which has never been done before.

Each aeroplane squadron will have the following equipment:

12 aeroplanes.

23 motor trucks, including a tank truck for fuel.

1 seven passenger automobile.

7 motor cycles.

12 portable canvass hangers.

2 portable machine shops with stock material and equipment.

10 spare aero motors.

Full assortment of spare parts for aeroplanes, motor trucks, automobiles, and motor-cycles.

Fuel and oil sufficient to last six months.

Full photographic, signal and other equipment.

12 machine guns and ammunition.

12 rifles and ammunition.

12 shot-guns and ammunition.

12 revolvers and ammunition.

The mechanical equipment of each squadron, exclusive of the ordnance and quartermasters' supplies, will cost approximately \$465,000.

The statistics compiled after ob-

servations were made of a squadron in actual practice — a war footing on the Mexican border. On the basis of what is necessary for that unit, equipment is now being assembled at San Antonio, for the two additional regular army aeroplanes, squadrons, recently authorized, operating 24 flying machines. The 1,300 men necessary to form the two squadrons are now being sent to San Antonio as rapidly as they can be recruited.

The reasons given by the officials for giving each squadron supplies sufficient to last six months follow:

"Experience with an aero squad-

ron in garrison and in the field has demonstrated that an aero squad-

ron, upon receipt of orders for field aero squadrons, one to operate with

each of the 12 National Guard divisions.

Plans are being perfected by the war department by which National Guardsmen who wish to enter the aviation service will be educated by the government. When a sufficient number of members of the guard in any locality have completed the necessary preliminaries and passed the prescribed examination, an aero company or squadron equipment will be supplied, complete in every detail, by the federal government, which will also bear the expense of maintenance. The unit will then be held at the base as an available reserve, during the time the base is regarded as a reserve of the regular army, subject to the call of the president only.

Explaining the condition met by the first Aero Squadron in Mexico

which led to the compilation of the aerial service, as at present projected, makes the aero company, the material and personnel for the operation of one aeroplane, the unit

Twelve of these companies form a squadrons form a wing; three squadrons—72 companies and aeroplanes form a brigade.

THE WOMAN'S SHARE
I'm not a militant, far from it,
but I do believe women should
have the right to publicly ex-
press their opinions, instead of privately
swaying their husbands or
sweethearts, as the case might be.

More or less, they are the "powers
behind the throne" or the voter be-
hind the ticket—sub rosa, as it
were. So if such be the case why
not let them vote, publicly, in front
of everybody, you know. (This re-
marks to those who scoff at the idea
of women voting.)

To go into detail why and why
not women should vote would be
stealing the thunder somewhat of
the coming state convention, to be
held here next week under the au-
thority of the Political Equality club.
Besides to every woman interested
in the welfare of the country, these
facts are known, and too, all women
who think, have made their
own decisions as to whether they
are suffragists or anti's.

In face of the suffragists I think
there is one thing women would not
do as a majority and that is, stick
to their party in face of a better can-
didate on the other side. Women
are intuitive, which gives them a
keener insight to character than the
man, who has just as good an intel-
lect, but lacks the intuition pecu-
liar to woman. So that being the
case, she is more likely to be cor-
rect in her judgment of the candi-
dates character, and being all, she
will vote for the more worthy.

I think if women were allowed the
ballot in this state, or in this city,
it would be found that they would
vote for Wilson. The majority of
women in Lima are for Wilson,
because they realize as cannot many of
their husbands, what Wilson has
really done—not said—for this
country and their homes.

Antis always give out their well-
worn and rusty platitude that "a
woman's place is in the home" but
here is one place that she would
give up her views if she could help
re-elect Wilson by her vote in order
to keep secure this place. At least
they will influence their husbands,
if the occasion demands, to vote for
Wilson. So I have been told.

As for the suffragists, appearances
favor the democratic candidate, and
the only reason they won't vote for
him is because they can't—in Ohio.

But there is nothing like convinc-
ing argument, would-be voters, and
better a "power behind the throne"
than no power at all.

Hints for the Housewife

The following recipes for the mak-
ing of candies are the last to be
selected from the "Collection of Old
Southern Recipes," which the Chris-
tian Science Monitor has been pub-
lishing from time to time:

Butter Scotch.

One cup brown sugar, 1-2 cup
water, 1 tablespoon vinegar, butter
the size of a walnut, flavoring to
taste. Boil 20 minutes, then pour
out on buttered tins and mark into
squares before it hardens. If liked,
1-2 cup of nut meats may be added,
just before the candy is taken from
the fire.

Amusements

"THE ONLY GIRL" TONIGHT. The musical comedy stage of America, which many times has received rebuke and been abused for being ridiculous or behind the times, would seem to have good reason to feel proud over the wonderful success of "The Only Girl," which will again be presented at the Faurot opera house tonight, for which Victor Herbert, who perhaps is the one composer of this country engaged in writing light music of whom it can be said without any embarrassment, as being a genius, has supplied the melodies, to the story and lyrics, the work of Henry Blossom, a shrewd, librettist, dexterous in both dialogue and rhyme.

"The Only Girl," stands distinctly, prominent and derives a great deal of its popularity, not alone from the delightful music with which Victor Herbert has clothed it, but also from Henry Blossom's amusing text, which contains a real plot, not made from the hollow old forms of humor which for so many years have served writers for the musical stage.

During its all season's engagement at the Lyric theatre, New York, with the same company to be seen here tonight, "The Only Girl," was highly commended, not alone for its originality of construction but also for the freshness and human note about the talk of the various characters which contrasted most favorably with the crackling of thorn under a pot, which is served as dia-

COMMON CLAY.

With the coming of "Common Clay" to the Faurot opera house Saturday matinee and night, playgoers of Lima will have an opportunity of witnessing one of the most remarkable plays of recent years—a play whose abounding vitality and unusual merit gave it a run of an entire year at the Republic theatre, New York City.

"Common Clay" is the first work of Cleves Kinkead, a young Harvard graduate. It is an intensely interesting dramatic protest against the social inequalities of our civilization. No play has ever handled the eternal problem of sex and property with more frankness, originality and vigor. It is the story of a young working girl who, in seeking to escape from her depressing environment, is betrayed on every side; who, when driven to the wall, fights desperately and unavailingly for her inherent rights and who discovered ultimately

that she belongs to that very caste that has scorned and despised her. It presents a universal human problem, that nobody can afford to miss, who is at all interested in the theatre or the questions of the race.

Manager Woods will present the play with a brilliant company including the excellent character actor, Thos. E. Shea; Catherine Tower, well remembered for the excellent portrayal of Mary Turner in "Within the Law"; W. A. Whitecar, George Tilton, Raymond Bramley, Jas. J. Cassidy, Edw. Leahy, J. Irving Southard, Tessie Lawrence, Charlotte Burkett, Pearl Ford and others. Seats are now selling.

Frands X. Bushman Tomorrow. At Drexel tomorrow will appear Francis X. Bushman in another of his two serial dramas entitled "A Man for All That," and in which Ernest Bayne plays some of the leading feminine roles. This feature is replete with thrills and shows the versatility of both Bushman and Miss Bayne. Besides this is shown the Hazards of Helen feature entitled "The Death Swing" and which is one of the most daring stunts she has undertaken in for some time. Besides this is portrayed a "Reel Life," of especial interest to children.

Chaplin at Strand Tomorrow. At the Strand tomorrow will be shown the last of the famous Fantomas series dealing with the final adventures of this famous Parisian criminal and his cleverness in outwitting Juve the chief of the French detectives. The story is replete with unexpected climaxes and should draw capacity houses for this last episode. Besides this will be shown a new Chaplin cartoon dealing with the adventures of Charlie, Fatty and Mabel. It's a scream from start to finish.

Chaplin at Strand Tomorrow. Helen Holmes to Appear Again.

The daring heroine of the "Girl and the Game" serial will again appear at the Royal. It is another of the serial stories "The Lass of the Lumberlands," which is claimed to be even more thrilling than "The Girl and the Game." The story is to be published in Saturday's News, so all are urged to start right away.

At Royal Today. At the Royal today the movie favorite, Wm. Russell, will appear in another of his Mutual Star productions, which is one of the prettiest scenic films as well as most thrilling; that has been shown here for some time. Russell is seen in the role of a guide of the north woods, who is a rough two-handed fighter of great physical strength, and at the same time a dreamer, a writer of verse.

At Royal Tomorrow. One of the strongest bills of the season has been prepared for Saturday's program at the Royal and which has been awaited by almost ever, one in Lila. The great serial story "The Yellow Menace" will start at the Royal tomorrow, with Edwin Stevens, Florence Malone and Margaret Gale playing the leading roles. For months public men have been sounding a warning on the peril "Across the Pacific," and the famous writer, Louis Tracy, presents in the serial "The Yellow Menace," the dream of the yellow race that they will some day predominate the world. Besides this will be shown the Chaplin two reel Mutual "One A. M."

Jack Patton and Co. Present the
Musical Absurdity Entitled
"HIS DINNER PARTY"

A Screechingly Funny Girl Revue.
With Latest Song Hits.

4—OTHER FEATURES—4

GOOD BILL SHOWN AT ORPHEUM FOR LAST HALF OF WEEK

The girl revue, "His Dinner Party," a musical absurdity packed both houses at the Orpheum last evening. It has a cast of four principals and a chorus of six pretty girls whose costumes and dancing were a delight to behold. The two comedians kept everyone in an uproar with their antics. They have two very good singers in the production and the Scotch song was most effective.

Bennet and Richards in a comedy novelty are the funniest pair that have appeared in Lima for some time. They are black-face comedians, and, as they are the first to play on the Orpheum circuit this season, they were hailed with delight. They open their act with a "dramatic stunt" that was a scream and they carry this melodrama through their entire act. They are very clever dancers, especially the small chap.

William Wilson and Company in

"The Politician" have a comedy very appropriate for this time and the two principals are well cast for their parts. It is a suffrage burlesque with a woman running for mayor and is full of surprises. Their remarks struck home and were greatly appreciated. The Three Harmony Harmonists are good singers and very attractive looking girls. The soprano soloist is by far the best and in all their numbers her voice is predominant. The great Lakose

is a marvel of strength and performs almost impossible feats of lifting.

WALL STREET PUTS GIGANTIC SUM INTO HUGHES' CAMPAIGN

G. O. P. Managers Not Allowed to Handle It; to Dodge Law.

Most of the Money for Use in the State of New York.

NEW YORK, Nov. 3.—The Evening World says tonight:

"Within the last two weeks a fund amounting to \$1,200,000 has been raised in Wall street for the purpose of 'Putting Hughes over'. This fund is not going to the republican national committee, which had raised nearly \$1,700,000 ten days ago, but is to be expended by a committee representing the donors of the fund acting under legal advice as to how to make the expenditures without being compelled under the law to deliver a report.

"This fund today was reflected in the odds in the betting. Money used in this way cannot come under the federal scrutiny of campaign expenses.

"A firm of Wall street lawyers heavily interested in the brokerage business and multi-millionaire magnates interested in western mineral projects are said to have framed up the plan and engineered the gathering of the fund. The law firm is said to have collected more than \$400,000 alone. Interested in the fund are some of the men who handled the Harriman fund of \$250,000 in 1904 to such good effect that, according to Mr. Harriman himself, 50,000 votes were changed in New York amounting to an increase of 100,000 in the vote for Roosevelt".

"The financiers who thought out the plan of independent expenditure of a million and a quarter dollars in the interest of Hughes were frank in telling their plans to interested persons, according to the reports which reached the democrats. They simply said that unless a huge sum of money was raised Wilson would probably be elected, and if a huge sum of money was raised it was a reasonable certainty that Hughes would be elected.

"It is said that a part of the fund has been turned over to the combination, which will spend \$500,000 in advertising in the windup of the campaign to counterbalance, it is possible, the effect of Henry Ford's advertising campaign in behalf of Wilson.

"As much money as needed will be used to win back the labor vote, the democratic committee hears. This work is in the hands of efficient organizers, who have been doing big things all their lives.

"The idea is to approach each of the 400,000 members of the four railroad brotherhoods before the end of this week.

"The actual work of seeing and talking to 400,000 men and trying to persuade them that the Adamson law is a fake will not be entrusted to politicians. They are to supervise it, but the railroad men are to be seen by their bosses, by merchants to whom they owe money, by bankers holding mortgages on their homes, by ministers—by everybody but persons known to be active politicians.

"Those who have been told of this plan say it will cost an immense amount of money, involving, as it does, a personal canvass of 400,000 men in a few days, but they say, the money is undoubtedly on hand.

"It is said \$500,000 of the fund is to be sent up-state, in fact, part of it is said to have already been distributed. Erie county (Buffalo) alone, the statement goes, is to receive \$50,000.

"It is true that the up-state leaders are to have \$50,000 to spend in addition to the allotment from the national committee and the state commission the fund is the largest ever used to influence an election in this state.

"The republicans of Indiana have also profited from the fund, it is said. The bulk of it, however, according to the report from Wall street is to be devoted to New York state."

REQUEST' SUNDAY FOGLE CLAIMS TO IS UNIQUE PLAN AT BE ALLEN'S BEST FIRST CONG. CHURCH

Request Sunday is being observed at the First Congregational church by the Rev. Chester S. Bucher. This is the anniversary of the first occasion when the Rev. Mr. Bucher occupied the Congregational pulpit one year ago.

The subject of the sermons on Request Sunday is determined by ballot. This vote indicates which have been the two outstanding sermons of the past year. The pastor believes that if a sermon is really worth hearing once, there are many who would like to have it repeated, and have the opportunity of bringing their friends to hear it.

The text chosen for the morning service is "Love Your Enemies". It was instructing John Barton how to operate a sawing machine just sold. George is minus one finger and has a badly lacerated hand.

FRREMONT—George Dorr, agent, was instructing John Barton how to operate a sawing machine just sold. George is minus one finger and has a badly lacerated hand.

Motion pictures for the evening service comprise a trip to historic Boston, showing the home of Paul Revere, Bunker Hill monument, Old Ironsides, The Minute Man at Lexington, the home of Longfellow, and the famous battlefield at Concord.

EMPLOYES GUESTS AT BOSTON STORE

To promote a more harmonious spirit between employees and officials of the Boston store, a dance was given last night in one of the new rooms of the remodeled building in which the store is located.

A six-piece orchestra furnished music for the dancers, all of whom were required to attend the affair masked and costumed. The ball room was laid out in the "Ready-to-Wear" department.

RESOURCES OF BANKS INDICATE HIGHEST STATE OF PROSPERITY

All Records Broken by the Last Reports Made to Comptroller.

NEW YORK, Nov. 3.—National banks have greater resources than at any time in the history of the American banking system, Comptroller of the Currency Williams announced today, basing his statement on returns from the call for the conditions of the institutions as of September 12 last. The report shows resources aggregating \$14,411,000,000, which is greater by \$216,000,000 than any previous record. The banks show an increase of \$2,144,000,000 over a year ago. Deposits amounted to \$11,62,000,000, an increase of \$2,133,000,000 over last year.

The comptroller reported that the operation of the federal reserve act has resulted in breaking up the great centers of capital such as New York and Chicago, and has effected a wider distribution of money. Deposits in New York, Chicago and St. Louis national banks fell off \$218,000,000 since last May, while the country bank deposits show an increase of \$294,000,000 since last May.

Loans and discounts amounted to \$7,859,000,000 is the greatest in the history of the banks. Circulation

has fallen off \$44,000,000 during the last year, the report says. Reserves on September 12 amounted to \$2,232,000,000, an increase of \$26,600,000 over last year. The excess reserve amounted to \$657,000,000 an increase of \$22,000,000 compared with a year ago.

MARINELLO SHOP CHANGES HANDS

Miss Marsh and Mrs. Hershberger, yesterday, purchased the equipment in the Marinello Beauty Shop, 113 West North street, from Mrs. Sydenstricker, and in the future will conduct the business of the establishment.

The new owners of the shop were connected with the shop two years ago. Both are graduates of the Marullo training school of Chicago. Arrangements are being made for remodeling and redecorating the quarters.

CORNS LOOSEN, LIFT EIGHT OFF

Nothing But "GETS-IT" Will Do This to Corns and Calluses. If you've ever had corns, you've tried lots of things to get rid of them—sauves that eat the toe and leave the corn remaining, cotton

ringings—nothing, except "GETS-IT", will do what millions are doing, take 3 seconds off and apply "GETS-IT".

It dries, you put your stocking on right away, and wear your regular shoes. Your corn loosens from the toe, it lifts right off. It's painless.

It's the common-sense way, the simplest, easiest, most effective way in the world. It's the national corn-cure. Never fails.

"GETS-IT" is sold and recommended by druggists everywhere, 25c a bottle, or sent on receipt of price, by E. Lawrence & Co., Chicago, Ill.

Sold in Lima and recommended as

the world's best corn remedy by H. F. Vortkamp, M. Keltner, Hunter's Drug Store.

Visiting Nurses Specially of Great Service in the Care of the Children

Ministering to New Baby's Eyes.

"To minister, to teach, to prevent" is the watchword of the Lima Instructional Visiting Nurse association now making a campaign in Lima to secure funds to continue the work of the two nurses for another year. Envelopes have been distributed in every home in Lima, asking for a pledge or donation of money. Even a small amount will be gratefully received.

This morning, inside the closed door, there are many ill and needy, awaiting the sound of the nurse's knock. "True Happiness Lies in Service." Do you wish to find a little happiness by contributing now to this association and help to send the visiting nurse as your substitute to those in need of care and love?

Among all kinds and conditions of people the nurses labor lovingly. They help the babies to become as fat and chubby as the healthiest boy in any home. The nurse teaches mothers to keep their babies well. And anyone who knows the joys and comfort which comes from a baby in the home, will feel this money well spent.

The association has done much good in aiding mothers of premature and ill-nourished babies to become strong and healthy. A baby which was a premature of eight months weighed 4 1/2 pounds. After the visiting nurse had visited him and prescribed his diet and the little fellow's mother had followed her instructions, it was only a little time until baby was strong. At three

months, he weighed 13 full pounds, and is still growing.

Mothers and their new babies are cared for in their own homes. The nurse is especially careful to see that at birth, by treating the eyes, blindness and eye trouble does not exist. Our illustration today shows nurse and the physician co-operating to give baby bright, clear eyes. The state worker for the blind, on her trip of investigation and inspection of Lima, remarked concerning the few cases of eye trouble existing among small children and especially those in the most unfortunate families. She declared this high-class condition to be due to the efforts of Lima's visiting nurses at the time baby was born.

The chronic sufferer looks forward to the coming of her friend, the nurse. Day after day in bed, with no thought nor hope of complete recovery, the visit of the nurse for a half-hour or so, each morning, comes to her as a blessing rare.

And daily these two angels of mercy go about the city, into any home where called, to aid the sick and distressed. Any one in the city may secure the services of the nurse by calling the City hospital or any physician or any of the officers of the association. And the services of the nurse are free to all.

And that is why you are asked to please be as generous as your purse will allow when you place your pledge or money in the envelope, for this amount goes to pay the salaries of nurses the coming year. These envelopes are being collected today and Saturday.

ELIDA

On next Saturday evening, November 4, the International Glee club will appear on the opening number of the Elida High School Lyceum course. Each member of this company is an artist of note, and their work is easily the equal of any similar organization on the platform. A first class entertainment is assured all who attend.

Rev. A. E. Davis left Monday for a few days' visit with his brother in Baltimore, Ohio.

Mrs. O. E. Sherick and two children of Lima, spent Monday with B. F. Sherick and wife.

W. A. Davis attended the funeral of George Cooper at Middlepoint, Monday afternoon. The deceased was an employee of the Ohio Electric company.

The M. E. Missionary society met last Thursday afternoon at the home of Mrs. George Brunk. A large number of members were present, besides several guests. Discussions and readings on the lesson were given; also reports of the recent convention in Lima, by Mrs. O. E. Smith and Mrs. C. T. Ritenour. The hostess, assisted by Mesdames L. W.

John, A. O. John and Willis Huffer, served refreshments at 4 o'clock.

Hugh Stockwell has a new automobile.

The Christian Endeavor society of the U. B. church will serve a fish supper on Tuesday evening, Nov. 7, from 5 to 6 o'clock.

Last Wednesday Rev. and Mrs. A. E. Davis entertained the following ladies from Cradlersville: Mesdames Overholser, Barton, Reichelderfer, Parmenter, Miss Barton and Mrs. John Umbaugh; Mrs. Homer Clark and son, Mrs. Edna Winget and daughter, Mrs. Ambros Baumgardner, Mrs. Ida Blank all of Lima. A pleasant day was enjoyed by all present.

The Elida circuit of the U. B. church will hold its first quarterly meeting on Tuesday afternoon, November 14, at 2 o'clock. Rev. W. R. Ballinger, conference superintendent will be present, and all officers are urged to be present. The quarterly communion service will be held at the Elida church on Sunday morning, and at Marion, Sunday evening.

Miss Helen Enslen of Ft. Wayne, is visiting her cousin, Miss Creteira Enslen.

Mr. and Mrs. Allen Friend spent Sunday with relatives at Venedocia.

If Your Children Have Colds Follow Troy Mother's Advice

Mrs. John Sharit's Advises Use of the "External" Treatment.

Mothers know how difficult it is to treat children's colds. It seems criminal to give them strong internal medicine, and yet their colds cannot be neglected. MRS. JOHN SHARIT, 717 West Water St., Troy, Ohio, solved this problem when she tried the Southern treatment Vick's Vap-O-Rub Salve. "We have used Vick's Vap-O-Rub Salve on our six children for

the past three years, and now we would not be without it. I like it so much better than I do medicines that have to be given internally."

Vick's Vap-O-Rub can be used freely with perfect safety on the youngest child. The formula is given on every wrapper. For croup or colds, you just apply it well over the throat and chest and cover with a warm flannel, leaving the covering loose around the neck so the vapors arising may be inhaled. Croup is usually relieved in fifteen minutes, cold over night.

Three sizes, 25c, 50c or \$1.00.

What He Stands For

"YOU ask what road I propose to travel?

These are the milestones which mark it.

"An Executive responsible to the whole nation.

"A Cabinet chosen from the ablest Americans.

"A foreign policy that stands courteously but firmly for American rights.

"A flag that protects the American in his lawful rights wherever his legitimate business may take him.

"A preparation for trade competition which shall protect all groups of American workmen.

"A government oversight of business which will fearlessly eliminate abuses, but will act on the assumption that the average business man is honest.

"And finally a domestic policy which looks to industrial peace, and to sound and permanent prosperity based upon the development of American trade and the building up of American industries.

"We Americans are in one boat. You cannot strike a blow at one group without injury to all. Common justice and fair play will settle our difficulties if suspicion and bitterness are let alone. These are the principles by which I propose to be guided."

Welsh Usually Shows Ability In Later Meet

By Frank G. Menke.
NEW YORK, Nov. 3.—Dodge ever notices that Freddie Welsh rarely outpoints a foe for the first time he meets him—and that he rarely fails to do it in the second whir?

The first time Charlie White ran rivot of the lightweight champion he looked awfully good—and Welsh not so good.

If Charlie ever gets another crack at that Welsh baby the lightweight crown will be his n', murmured White's fond and loving friends.

White has had about three chances since then and Welsh has been his absolute master on each of those occasions.

Benny Leonard took on Welsh in New York late in the spring. He rushed right in and whaled Welsh unmercifully. He fought like a champion, Welsh like a dub. And so they were rematched and Leonard went into the fracas a favorite in the betting. Gotham's vast East Side staked its race on Benny to win—and Benny, oh yoi, what a beating he did get.

Shrewdness of Welsh.
Peer back through Welsh's record and you will find the same condition existing almost invariably. In the majority of his no-decision bouts, the Briton always has looked like a "has been" in his inaugural fights against new rivals—and resembled something vastly different on the second go with the same man.

Why is it? Shrewdness, Oscar; that's the reason. Welsh is always looking to the future. In his first run-in with any gent of the padded suit, Frederick is cautious. He fights almost wholly on the defensive. Welsh is letting the other goafer show everything he has while he is concealing all his tricks and punches.

And so, the natives, always keen about seeing a champ dethroned, whoop it up for another battle. That's just what Frederick wants. The oftener he fights, the fatter the haulkroll. So another match is made and the youth who outpointed Welsh in the initial affair, promptly rushes in and—gets a terrible surprise.

DAYTON—Michael J. Hanly, aged 35, married, a former policeman, was shot down last night near his home by an unidentified assassin, and efforts of the police after the killing have failed to catch the slayer.

MARYSVILLE—Henry Stoner and wife and Guy Davis and wife were seriously injured last night

He finds himself facing a different Welsh, a vastly different fighter. He is confronted with a real champion; one who suddenly has become offensive, one who beats him to every punch; a champion who knows his every trick, his every weakness; a fighter who is his master throughout.

That's right; if Frederick beat up the man in the first scrap there wouldn't be a second. And it's those second ones that always draw biggest and get for Welsh the bulk of the guarantee.

Dundee vs. Kilbane.
Promoting ginks in the Gotham district are trying to sic Messrs. Kilbane and Dundee upon each other. The brace of Johnnies are willing—for a price. And, as Bill Shakafewspapers said: "There's the rub".

Kilbane wants a sum equivalent to a large portion of John D's fortune; Dundee wants the crown jewels of Italy. And there you are—or they are.

Another fight between the two would be worth the price of admission, provided C. Hercules Ebbets didn't stage the bout. Twice before have they clashed, in the days when Dundee was battling in the feather division. The first scrap was in New York, September 4, 1912, over the 10 round route, with Kilbane having a shade at the conclusion.

The second meeting caused quite a stir. It happened in San Francisco on April 29, 1913. After 20 rounds of slam-bang work, the referee called it a draw, while huge gobs of spectators rose right up and shrieked denunciations. They were of the opinion that the decision—and with it the title—should have gone to Dundee. The Italian scrapper and his manager thought so, too, and wailed loudly—but in vain.

Kilbane still is a legitimate featherweight, while Dundee has grown into lightweight. But Kilbane announces:

"I don't care what Dundee weighs; I'll take him on if I get the price. If—

Judge Landis Is Considered Good Man For Chair

CHICAGO, Nov. 3—Kennesaw Mountain Landis, judge of the United States court here, is being mentioned as a possible successor to Garry Herrmann as chairman of the national baseball commission. In well informed quarters it is intimated that the jurist would be acceptable to a number of the magnates of the American and the National as a result of the attitude he showed toward organized baseball in the suit brought by the late Federal league.

The judge, a thirty-third degree fan, said in the course of the hearing: "You all understand that a blow to the game of baseball will be regarded by this court as a blow to one of our national institutions." Whether Judge Landis has been approached by any of those who are seeking to re-organize the commission is not known and whether he would be willing to accept is very uncertain.

"PLAY FOR THE BIG FELLOWS," SAYS MURPHY

R. M. Murphy.

Here, gentle reader, we place before your eyes the likeness of one, R. M. Murphy, one of the grandest little football managers that ever did any managing. "Murph" handles the Washington and Jefferson team. He makes out their schedules and one of his aims is to get for W. & J. the toughest foes in the country.

"Why not?" he asks. "W & J. always had a real team, even though it must be drawn from less than 500 students. What's the use playing 'bushers'? The big fellows like Yale, Harvard and the others are the ones we want to beat. And the only way to do it is to get a game with them."

In 1913, "Murph" arranged a game with Yale and W. & J. played a scoreless tie. In 1914 and again in 1915 W. & J. beat Yale.

Eilerman Cadets To Play Mendon Squad Tonight

The Eilerman Cadets, Lima's representative baseball team this year, will make their first appearance on a foreign floor this evening when they travel to Mendon, Ohio, to play the team of that town.

last year the Mendon boys had one of the strongest fives in this part of the country, and the Cadets proved to be the only club that could down them on their own floor. This year the local five is a faster club, and are looking forward for one of the greatest seasons of their career.

Erwin Baker, for six years the star center of the Cadets, has handed in his resignation to Manager Dickey. However, that position will be strengthened by Coach Hill, a new addition to the team. Powers is another new man to secure a berth on the Cadet club, will play the left guard.

Miller, Farrel and Dickey, the latter the manager of the club, will make up the rest of the team.

The Mendon lads will take the floor with the following line-up: McClure H., Custer, rt., Donohouser c., Hooks lg., Wertz rg.

Welsh-Kilbane Fight on Deck For Cleveland

NEW YORK, Nov. 3.—The Welsh-Kilbane bout which was to have been staged at Madison Square Garden probably will go to Cleveland. O.

Mat Hinkle, who staged the Labor day bout between Johnny Kilbane and George Chaney, it is understood has already practically concluded arrangements with Kilbane. Harry Pollock received the following telegram from the western promoter:

"Am prepared to make an offer for Welsh to box Kilbane. How many rounds will you match him for and what are your lowest terms?"

Pollock wired back:

"Welsh ready to box Kilbane any Morris."

time and place and any number of rounds according to financial inducements. Make me an offer."

"I want to see what Hinkle will bid," explained Pollock. "If it is reasonable I will take it up. Welsh is a bit peevish at the fact that some people are foolish enough to believe that Kilbane would have a chance with him. Moreover the boxing game looks a bit slow here at the present, and Frederick likes to keep moving and acquiring a few dollars for a rainy day."

Also Pollock has offered Hinkle the services of Charlie Weinhert to battle Moran, Fulton, Levinsky or

Wells ready to box Kilbane any Morris."

Notre Dame and Army Game Will Prove Very Good

By Frank G. Menke.

NEW YORK, Nov. 3.—The footbalers quit hard work today to rest up for their grueling battles of the morrow. Only signal practice drills of punting exercises were indulged in.

Harvard ought to have a cinch with Virginia. Princeton goes against the weak Bucknell team and with any sort of playing should romp through to a shutout victory. Pittsburgh meets Allegheny and ought to roll up fifty points—if it tries. But Pitt may use substitutes, not caring to risk its regulars in an unimportant game. That Dartmouth-Syracuse affair should be a thriller. Both teams have suffered a double defeat which robs the game of the tremendous interest it would have had if both states were clean. But just the same, the battle ought to rage fiercely in each period, with Dartmouth entering the fray with a bit of an "edge" due to its great backfield.

MISSIONARIES TELL OF CHRISTIAN WORK IN LANDS OF ORIENT

The Christian and Missionary Alliance opened a three-day missionary convention at their hall yesterday afternoon with speakers who have been engaged in foreign mission work for many years. The missionaries are on a trip covering many cities, holding these meetings in an effort to create greater interest in the foreign work of spreading the gospel and are having great success. They came here from Bowling Green and will remain until Monday, ending the meetings here on Sunday evening. The meetings are held at 2:30 and 7 p.m. at the Christian and Missionary Alliance hall on East Market street.

Last night the Rev. J. R. Cunningham spoke of the Chinese people and their manner of idol worshipping. Very great. He has hung on the wall of the hall Mr. Cunningham's talk jars, banners on which the Chinese Christians had written words of love and in what the Chinese received and meeting, which they asked him to explain in his meetings in America. Mr. Cunningham gave a very interesting talk of how the Chinese offer things of sacrifice to the idols, taking their babies to be placed before them to be dedicated to the service of idolatry and how earnestly they believe in the dragon as a god than for greater rewards.

Some of the cities, he said have what are called city temples, and in them are shown 10 different modes of punishment while the dead will receive it if they do not live up to the way these gentlemen teachings prescribed by the heathen deliver their talks. Tonight Mrs. Weyh will tell of her work in India and the Rev. MacArthur will again speak at the close of her talk.

The Chinese are a religious people, according to the speaker, and show it distinctly after being converted to the Christian life. He said that many persons have been given birth names when babies, but after being converted they immediately change their surnames in order to cast off all relations possible with their former worship. The field is so large in China and the mission work is so few accordingly that
